Objections to Claims

The Examiner has objected to claim 2 because of an informality. Applicant has amended claim 2 as suggested by the Examiner, to insert the word --to-- after the word "connects" in line 2. Applicants respectfully request that the objections to claim 2 be withdrawn.

Rejections under 35 U.S.C. §102

A claim is anticipated only if each and every element as set forth in the claim is found, either expressly or inherently described, in a single prior art reference. *Verdegaal Brothers v. Union Oil Co. of California*, 2 USPQ2d 1051, 1053 (Fed. Cir. 1987). The identical invention must be shown in as complete detail as is contained in the claim. *Richardson v. Suzuki Motor Co.*, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989).

Claims 1 and 2 were rejected under 35 U.S.C. § 102(b) as being anticipated by Posey et al (U.S. Patent No. 6,729,665, hereinafter "Posey"). Applicant respectfully traverses this rejection and request reconsideration of the claims.

Claim 1 has been amended to include the limitations of allowable claim 18. Accordingly, claim 1 as amended is allowable.

Claim 2 depends from allowable independent claim 1. Therefore, claim 2 is allowable, for among other reasons, for depending from an allowable base claim.

Applicant respectfully requests that the anticipation rejections of claims 1 and 2 be withdrawn.

Amdt. dated July 31, 2008

Reply of Office action of April 1, 2008

Indication of Allowable Subject Matter

The Examiner objected to claims 3-6 and 18-28 as being dependent upon a rejected

base claim, but indicated these claims would be allowable if the claims were rewritten in

independent form. Applicant wishes to thank the Examiner for this indication of allowable

subject matter. Claim 1 has been amended to include the limitations of allowable claim 18

and all claims have been amended to properly depend from claim 1, and are therefore

allowable.

Confirmation of Allowed Claims

Applicants wish to thank the Examiner for his confirmation of the patentable subject

matter of claims 3-6 and 18-28.

Regarding Doctrine of Equivalents

Applicants hereby declare that any amendments herein that are not specifically made

for the purpose of patentability are made for other purposes, such as clarification, and that no

such changes shall be construed as limiting the scope of the claims or the application of the

Doctrine of Equivalents.
